DATE ORTANED DATE ORTANED DATE ORTANED DATE ORTANED REFERENCES PAGES ENCLOSURES (NO. & TYPE) 25X1X 25X1X 1. The following air sctivity and sireraft were observed at Finow airfield between 25 May and 10 July 1953: 25 May: NiG-15s practiced flying at daytime. 26 May: During the morning, there was intensive air activity by swept—back jet fighters which flew individually and in formations of twos and fours. 2 June, At about 10 p.m., there was night flying by swept—back jet fighters, including one toding a sleeve target. The other MiG-15s fired at the sleeve target which was illuminated by a searchlight. The MiG-15s sometimes crossed the beause of the searchlight. 17 to 26 June, No regular training activity was observed at the field. A few individual flights were made by MiG-15s. 29 June, After 9:30 p.m., firing at sleeve targets with tracer amountion was practiced, while the searchlight was in operation. 6 July. MiG-15s practiced diving over the field. 7 July. There were approximately 52 MiG-15 and U-MiG-15s and 8 Yrk-11s stationed at the field. Forty-two of the MiG-15s and U-MiG-15s were counted. I carly June, the AM gun emplacement at the southeastern corner of the field was still occupied by 6 x 37-mm AM guns. 25X10	25X1X EVALUATION	PLACE OBTAIN	ED		25X1C

	3.	On 27 May, there was intensive air activity by swept-back jet planes which took off and landed at Finow airfield. Just next to the Finow rolling mill, was another airfield from which conventional aircraft took off. 2	
25X1A	1.	Comment. Finow airfield is occupied by a fighter division headquarters and two fighter regiments. Noteworthy is the information that MiG-15s practiced firing at sleeve targets at night while searchlights were in operation. The same exercise was also held by the fighter regiment at Alt Loennewitz airfield.	
25X1A	2.	Comment. This is a small airfield north of Finow which is probably occupied by courier planes of a Soviet Army headquarters.
